THE FACTORY

A factory, not a trading office.

Where we are

Canton Hyland was founded in 1998 in Xiaolan, Zhongshan. Xiaolan has been called the southern lock city since 1986, and in 2004 it was named China's lock export base.

What we do best

New tooling to your drawing or your sample. When a design meets someone else's patent, we rework the part or its appearance until it no longer conflicts.

Where it goes

We export to Europe, Russia, North and South America, Turkey and Southeast Asia, and run our own office and resident company in Germany. We exhibited at the Cologne hardware fair for years; our Spanish-speaking team has exhibited in Lima and Buenos Aires.

ORDERING

How to order

Six values decide whether a part can be installed. Written in this order they form one reference that needs no follow-up email.

9001 — SSS — 60 — 72 — L — 45

9001	**Model**	As printed on the product card and in the index.
SSS	**Finish code**	From Materials & finishes, page 5.
60	**Backset**	Millimetres, face of door to centre of spindle.
72	**Centre distance**	Millimetres, spindle centre to cylinder centre.
L	**Handing**	L left, R right, U universal.
45	**Door thickness**	Millimetres.

Where a value is not printed in this catalogue, it has not yet been confirmed by the factory. Ask for it rather than assuming a standard: the wrong backset is a container that cannot be installed.

Twenty finishes, three series

The US column is filled only where the equivalent is confirmed. A dash is a question for the factory, not a blank to be guessed at.

STEEL SERIES

SS	Stainless Steel	—
SSS	Satin Stainless Steel	US32D
PSS	Polished Stainless Steel	US32
SP	Bright Polished	—

PLATED SERIES

PB	Polished Brass	US3
SB	Satin Brass	US4
AB	Antique Brass	US5
AC	Antique Copper	US11
CP	Chrome Plated	—
SC	Satin Chrome	—
SN	Satin Nickel	US15
