NUMBERS AT RIGHT: MODEL COUNT / PAGE

START WITH THE PART

Make the enquiry precise.

Bring the model reference and the dimensions that decide whether it fits.

01 Model & quantity

Quote the complete model reference, including any printed suffix.

02 Door & preparation

Send the door material, thickness and existing preparation dimensions.

03 Finish & function

State the required finish, lock function and handing where applicable.

04 Destination & documents

Tell us the delivery destination and required drawings or test documents.

Published values stay with their model.

The product pages show selected published specifications. Use the online record or request the full drawing before confirming an order. Finishes and components pictured apply to the source image; confirm the supplied configuration in your quotation.

hyde@cantonlock.com

Catalogue references / drawings / quotations

PRINT + DIGITAL

A reference you can use.

Find by family

Use the contents to compare one type of hardware at a time. Each family begins with one real model, followed by the full illustrated range.

Compare at the product

Photographs, complete model references and selected specifications share the same space. Dimension images and assembly photographs remain as supplied.

Keep the complete reference

Finish and function suffixes are part of the model reference. Do not substitute a suffix or infer that every pictured option is supplied together.

Continue online

Click Full specification in the digital file, or scan the family QR code from the printed copy. The model index also links back to each product in this book.
